

Hello from New York

Inviato da SPEIRMOOR - 20/08/2014 15:30

Please forgive my English as I have very little Italian. I was directed here as I'm looking for help with my key which is missing the nameplate and was told I may find one here?

Here is a picture of my Griso

Hi Speir and welcome here!

Are you referring to the Guzzi logo within the key? I don't think it's a spare part. Some time ago a user (Maresciallo Gargiulo) made very nice nameplates...but with GrisoGuzzi.it logo.
